PINE SILVICULTURE: INTERNATIONAL SUCCESS FACTORS MANAGEMENT OF SCOTS PINE (*PINUS SYLVESTRIS*) FOR RESILIENCE - A CENTRAL EUROPEAN PERSPECTIVE

3 TO 5 P.M. (UTC)
MARCH 10, 2022

ZOOM · REGISTER IN THE LINK

SCOPE AND OBJECTIVES:

This IUFRO webinar aims to provide a compact overview on Scots pine management in Central Europe. Emphasis will be placed on timber production and NWFP; The provision of diverse ecosystem services; The vulnerability of Scots pine as to climate change; and Forest conversion for resilience – mixed forest management.

ORGANIZERS:

The webinar is organized by IUFRO (division 1 silviculture | ecology and silviculture of pine unit), Centro PINUS and the Eberswalde University for Sustainable Development (HNEE).

SESSION:

In an effort to accommodate multiple time zones, the symposium will be held on March 10, 2022, between 3 and 5 p.m. (UCT).
