## **PINE SILVICULTURE: INTERNATIONAL SUCCESS FACTORS MANAGEMENT OF MONTEREY PINE (*PINUS RADIATA*) IN CHILE**

**3 TO 4:30 P.M. (UTC)  
JULY 13, 2022**

### **SCOPE AND OBJECTIVES:**

Pines are one of the main wood-producing species in the world. They have a remarkable economic, social, and environmental role and provide important benefits.

This webinar is designed to provide foresters and researchers from all over the world a general outlook of monterey pine silviculture and management in Chile.
